PROFILE

Starting a new chapter in my professional life, I've become a Front End Developer. Learning new languages, filled with semi-colons and syntax to baffle the uninitiated, I have a deeper appreciation of what coding is and am constantly learning new and amazing things. Bringing together my experience and recent skills upgrade, I enter the world of web and application development.

PROJECTS

Who Told It Better

A group programming project answering the age old question. Was the movie or the book better? Built with React, and making multiple API calls.

<https://whotib.github.io/whoToldItBetter/>

Forecaster

A React project utilizing the OpenWeatherAPI. A simple clean responsive web design. <https://fhoedl.github.io/project5-frank-hoedl/>

EDUCATION

Web Development Bootcamp, Juno College (formerly HackerYou)

Toronto

May 2020 — May 2020

Applied Photography, Sheridan College

Oakville

Graduated with Honours

EMPLOYMENT HISTORY

Photographer

Toronto

Oct 1997 — Present

Over the course of my career as an Advertising Photographer, I learned to communicate, present and fulfill creative concepts. I've managed expectations, successfully collaborated with advertising clients delivering effective campaigns & more importantly repeat business.

Working with all the major advertising agencies, my clients have included Toyota, Kraft, and Coca Cola, among others. For the bulk of my career I was represented by Westside Studios.

Awards have included Cannes, and the One Show, and Communication Arts.
